What the group does

Each business keeps its own name, its own customers and its own operations. Nasos Bridge Limited sits above them: it owns the brands, holds the banking relationships, sets the standards every business works to, and gives buyers in the Gulf one counterparty for several Kenyan product lines.

The operating businesses source from partner farms, packhouses and abattoirs rather than growing or rearing themselves. That keeps the group focused on the work that matters to an importer: selection, quality control, documentation, logistics and reliable payment terms.

What the holding company does

- Owns the group brands and licenses them to the operating companies.
- Provides management, finance, administration, brand and IT services under intercompany agreements.
- Sets group-wide quality, documentation and payment standards.
- Represents the group to buyers, partners, banks and regulators.
- Incubates new lines — currently tea and coffee export — before they become businesses in their own right.

Standards every business works to

QUALITY

Graded to the buyer's specification, cold chain kept, inspected before loading.

DOCUMENTS

Complete and correct for the destination market, on every shipment.

PAYMENT

Clear terms on every document. KES or USD, bank transfer or letter of credit.

BRAND

One identity system across the group, licensed from the holding company.

KENYA → GULF

Why Kenya, why the Gulf

Kenya produces what Gulf buyers import every week: flowers, fruit, tea, coffee and halal meat. The group's work is the bridge between the two — sourcing, quality control, documentation, logistics and payment.

01

What Kenya supplies

Fresh-cut flowers from a wide base of partner farms. Hass avocado and fresh fruit. Tea from the Mombasa auction and Kenyan coffee. Halal beef, Galla goat and Dorper sheep.

02

The route

Air freight from Jomo Kenyatta International Airport (JKIA), Nairobi, for flowers and other perishables. Reefer sea freight from Mombasa to Gulf ports such as Jeddah and Khor Fakkan for avocado and fruit. Chilled carcass export for meat.

03

The markets

Saudi Arabia, UAE, Kuwait, Qatar, Oman, Bahrain, Iraq and Russia. The group sells to importers, wholesalers, distributors and retailers, and supports them with the certificates and documents each market requires.

04

One counterparty

Several product lines, one group, one set of documents and terms: quotation, proforma, tax invoice, certificate of origin and the phytosanitary, veterinary or halal certificates the shipment needs. Payment in KES or USD.

GROUP STRUCTURE

NASOS BRIDGE LIMITED holds the brands and provides shared services to each business. The group structure chart and intercompany agreements are available on request.

HOW WE WORK

From farm gate to Gulf port

Five steps, repeated on every shipment, whichever business is selling.

01

Consolidation

The operating businesses select from partner farms, packhouses, abattoirs and the Mombasa tea auction, then consolidate the order into one shipment. The buyer deals with one seller, one invoice and one set of documents.

02

Quality control

Grading to the buyer's specification. Cold chain from farm or packhouse to aircraft or container. Pre-shipment inspection with photographic reports, so the buyer sees what is loaded before it leaves Kenya.

03

Documentation

Commercial invoice, packing list and certificate of origin on every shipment. Phytosanitary, veterinary and halal certificates as the destination market requires. KRA eTIMS tax invoices for every sale.

04

Logistics

Air freight ex JKIA for flowers and perishables. 40ft reefer containers ex Mombasa for avocado and fruit. Chilled carcass export for meat. Quoted FOB, CIF or CNF under Incoterms® 2020, with freight booked by the group where the buyer prefers.

05

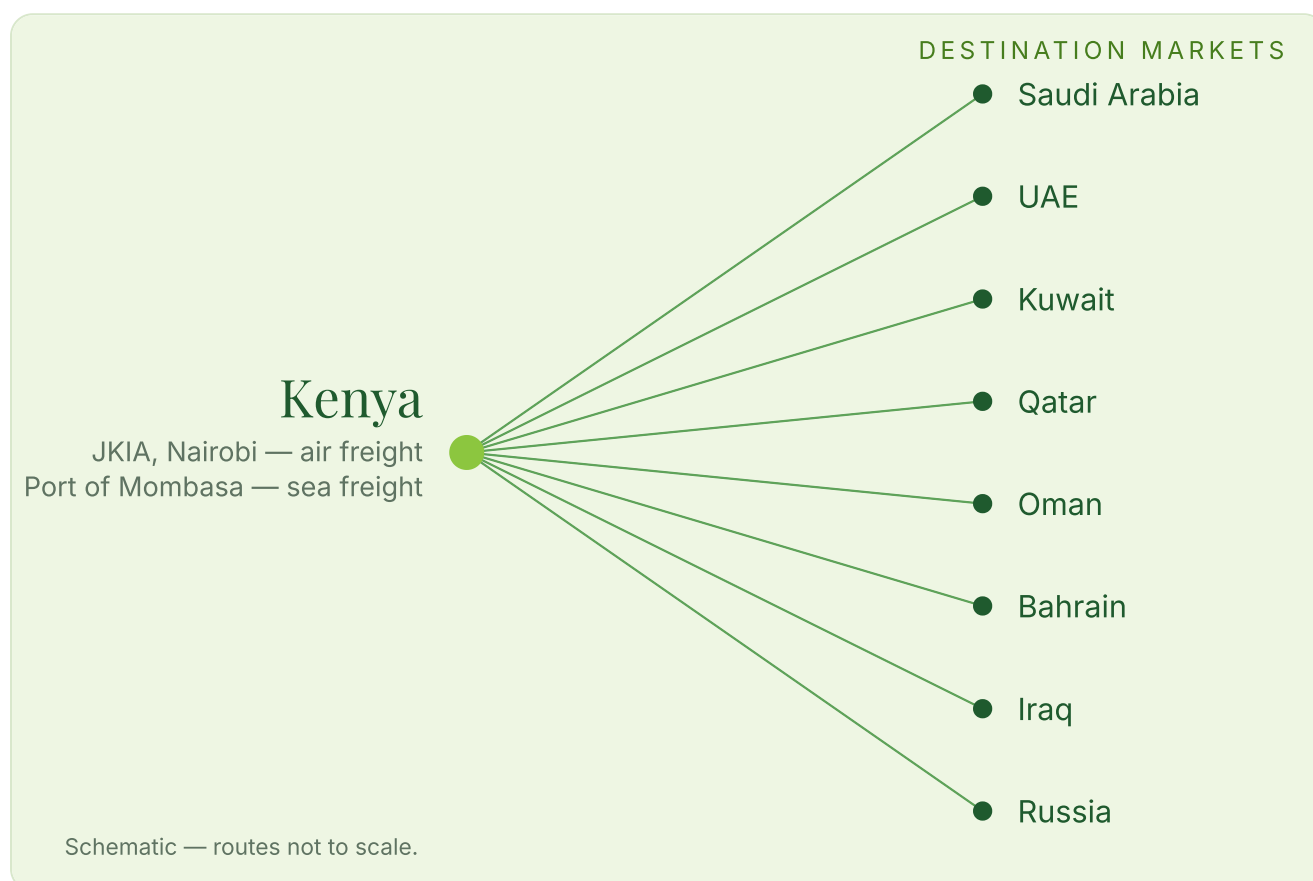

Payment

Quotation and proforma invoice first; shipment against bank transfer in KES or USD, or an irrevocable letter of credit. Terms are stated on every document and the group invoices through its own KRA-registered company.

MARKETS

Where the group sells

Six GCC states, Iraq and Russia. Flowers already move by air to the GCC, Iraq and Russia; avocado and fruit by sea to Gulf ports; tea and coffee to Saudi Arabia and the Gulf.
